

DAYLILY LIST - 1955

I have been breeding daylilies for many years and I think some of the following listed, such as KING ARTHUR, JOY, DELRAY, LEYTE, and ARLINGTON, have been found to be outstanding.

My originations do well both in the North and South. Eleven of these listed are growing in the University Trial Grounds at Baton Rouge, Louisiana and you can see them during the Convention.

AMRITA, JONI, KING ARTHUR, LEYTE, POTOMAC and VINITA are evergreen. All others are dormant.

The following four varieties are being offered for the first time:

1. ARRANGEMENT GEM - Pale yellow opening about noon one day, lasting until about noon the next. Slightly ruffled 3-1/2" bloom on a 46" well-branched scape. Price \$10.00
2. COLLETTE - Pale yellow sepals and contrasting dark brown petals with yellow midrib. Blooms 5" spread on 36" scape. Midseason. 6.00
3. FARIDA - Attractive pale yellow with bright red eyezone. Blooms 5" on 36" scape. Midseason. 3.00
4. RUFFOLACE - Ruffled bicolor, with pale yellow sepals and pinkish colored petals that take the hottest sun. Blooms 4" on 36" scapes. 5.00

A list of the best of former introductions

- AMRITA - Large pastel bi-color, yellow sepals, petals overflushed with salmon pink. Large open blooms 5-1/2". Early. \$1.50
- ARLINGTON - Large wide-petaled bright pale yellow. 6" blooms on 40" well-branched upright scapes. Late midseason. 5.00
- DELRAY - Brilliant velvety ruby red, 6" bloom of unique shape. Medium height. Mid-season. 3.50
- FAIRFAX - Beautiful bright clear red 5-1/2" bloom, 36" tall, attractively formed. Best in semi-shade. Early mid-season. 1.50
- JONI - Pale yellow sepals, lavender-pink petals. Nicely ruffled. Evening bloomer. Lasts well next day but prefers some shade. 3.00
- JOY - Martius yellow self with slight touch of green in throat. Wide overlapping petals slightly twirled. Both sepals and petals have crinkled edges. An outstanding yellow that does not fade. Late mid-season. 3.50
- KING ARTHUR - Deep solid golden orange with ruffled, slightly recurved petals, pinched at tips. 6" bloom. Remains open unusually late in evening. Mid-season. 4.00
- LADY LUCK - Large very bright yellow, 5-1/2" bloom, broad and frosty petals with ruffled edges, overlapping the sepals. Decided fragrance. Rapid increaser and long blooming season. 3-1/2 feet tall. July-August. 4.00
- LEYTE - Deep ruby red, darker near broad star-shaped yellow throat. Very attractive form and color. Recurved type. 5-1/2" bloom. Early mid-season. 3.00
- MADISON - Blood red 4-1/2" blooms that attract attention, holds color in hot sun. Long season of bloom and rapid increaser. Lovely for border. 2 to 2-1/2 feet. 2.00
- MT. POCONO - Very large red with darker eye zone of very attractive form with gold throat, a very showy and striking background plant. 7" blooms. 4-1/2 feet tall. 2.50
- POTOMAC - Large light yellow of good texture, 6" blooms, broad petals, slightly recurved. Well branched with many blooms. 3' June-July. 3.00
- TULSA - Princeton orange with maroon mid-zone, sepals flushed with maroon, broad overlapping petals, 5-1/2" bloom. Well branched and unusual. 2.50
- SHENVALEE - Fine light red of uniform color, yellow throat. Excellent branching. 4-1/2" bloom. Late mid-season. 1.25
- VINITA - Chrome dusted and splashed red. Attractive garden variety. Medium height and size flower. 1.25
